THE NEWS MEDIA & THE LAW

Table of Citations — Volume 13

Three years ago, *The NEWS Media & The LAW* published a cumulative index of volumes 1-10. What follows is an index of all cases, statutes and legislation discussed in articles in volume 13, including references to discussions of those cases in earlier volumes.

The index is divided into two sections. The first is an alphabetical index. The second is a topical index.

The alphabctical index is comprised of four subdivisions: cases, statutes and rules, legislation and miscellaneous government reports. Most entries include citations to official compilations of legal materials. Where possible, we have provided the most complete and official citation, updating those that originally appeared in the magazine to reflect subsequent court or legislative action.

In many instances the magazine has mentioned cases and legislation that were not reported officially. For these entries we provide as much information as was available to assist in tracking down the original documents.

Each entry is followed by one or more references to *The NEWS Media & The LAW.* For example, the reference "12 : 3 : 45" is to volume 12, number 3, page 45.

References in **bold** type indicate that the magazine contained a story about the case. References in light type indicate that the case was mentioned in a story about some other subject. This usually occurs when a court has decided a case based on a precedent set in an earlier decision.

The second section of this index, organized by topic, begins with a list of categories and subcategories. Within a subcategory, entries are organized alphabetically. Cases are listed first, statutes and rules next, legislation third and miscellaneous reports last.

For example, if you are looking for cases dealing with compelled disclosure of confidential information in a civil case, you would look first in the topical index under Confidentiality, Confidential Information — Civil Cases. Using case names found there, you then would look in the alphabetical index to find citations to *The NEWS Media & The LAW* or to official legal reporters.

This index does not list every story that has appeared in the magazine. Stories dealing with news events, rather than legal events affecting the news media, have not been catalogued.

We have attempted to make the entries as complete and accurate as possible, subject to human error. We encourage our readers to call to our attention mistakes or omissions they discover. □
